

More than just a traditional telecommunications company, Peerless Network is committed to meeting the unique needs of international clients, and can help you lower your costs, more efficiently scale your network, and improve the quality of service you deliver to your own customers. Since our inception in 2008, Peerless has remained laser-focused on helping our customers use communications to their advantage.

Network Reliability & Resiliency

Peerless built its fully IP-based network from the ground up focusing on a better, more efficient way to deliver quality service at an excellent price point. Our network has delivered first-class quality and reliability since 2008. A few highlights:

- Peerless owns and operates its own network, delivering first-class quality and 99.999% reliability.
- Peerless has installed millions of SIP trunks and carries over 9 billion minutes of voice traffic per month.
- Over 20 million telephone numbers in use.

A Rich History in Telecommunications and Commitment to International Customers

- **Peerless Leadership:** With 14+ years of proven operational success, Peerless Network is led by a team of individuals with deep expertise and tenured relationships throughout the telecommunications industry. Four of Peerless' founders are still actively involved in the ongoing success of the company, and their combined industry experience is indeed impressive.
- **White Glove Customer Service:** Each day, our goal is to earn the respect and trust of our customers through exceptional customer service. Peerless Network's support processes have been developed to provide you with fast, professional, and personal responses to all of your customer needs.

A Rich History in Telecommunications and Commitment to International Customers

(Continued from previous page)

- **Simple and Streamlined Processes:** Our customer care starts with an easy and well-honed installation and implementation process. The entire Peerless Support Team is dedicated to making this initial step simple, efficient, and error-free.
- **Immediate Access:** When additional care is required, it is important to have quick and immediate access to support professionals, which is why the Peerless Service Team is available 24x7x365. Whatever the need, Peerless is there to meet it.
- **Personalized Care:** We pride ourselves on developing direct relationships with customers—from test and turn-up through all aspects of service delivery. This close interaction allows us to better understand each customer’s application, as well as their individual service needs.
- **Quick Resolution:** Over time, given the nature of our industry, issues will arise. And when they do, they need to be handled quickly and competently.
- **Quality of Service:** Peerless’ customer management strategy has always been ‘belt and suspenders approached’. Our NOCs, Customer Support team, and Quality Assurance team monitor traffic daily to identify obscure traffic trends, missed by automated systems.

Industry-Leading Solutions

Our portfolio includes a full range of services, and no one does voice better than Peerless Network.

SIP TRUNKING AND CLOUD PBX (UCaaS) AVAILABLE FOR WHITE LABELING
